1. The "Soviet" airfields at Telish (N 43-20, E 24-16), Stara Zagora, Plovdiv, and Gorna Oryakhovitsa have been modernized, enlarged, and equipped with new materiel for controlling air traffic. Exact details concerning improvements at these fields are still lacking. 25X1
2. MIG-15 squadrons are based at each of the airfields mentioned in Para. 1 above. These Soviet jet planes are of the same model as that recently turned over [REDACTED] by a Polish pilot [REDACTED]. All pilots and ground personnel here are Soviet citizens. Bulgarian military personnel can enter these fields only by 25X1 special authorization from the Soviet commander of each field. Yambol airfield and the armament factories at Kazanluk and Sopot (N 42-38, E 24-46) are also governed by the same restrictions. These three installations are now in the hands of Soviet specialists who are improving them according to their plans.
